Consider:

 - *What resources/authors/perspectives have informed your work?*
 - *Whose voices/what perspectives are missing?*
- In what ways does/will this action, decision, direction or recommendation **promote equity**? Among Sisters? Partners? Others?
- In what ways does/will this action, direction, decision, recommendation help to **foster communities characterized by inclusivity, healing and/or reconciliation**?
- How will this action, decision, direction, recommendation be **sustainable over time**?
